

PRODUCT INFORMATION SHEET

LYRIC[®]X

Graphics Creation.
Reinvented.

THE LEADER IN GRAPHICS CREATION AND PLAYOUT

LYRICX. THE NEW HIGH PERFORMANCE BENCHMARK.

Lyric is the world's leading graphics creation and playout solution. Lyric has been adopted by more broadcast outlets around the globe than any other graphics solution, and with good reason. Lyric transcends traditional boundaries with unequaled creative freedom, seamless interoperability and advanced 3D object rendering, while leveraging the latest in 64-bit architecture.

THE INNOVATION CONTINUES. LYRICX 2.0

ChyronHego played a major role in the invention of the character generator. The introduction of LyricX reaffirms ChyronHego's commitment to broadcast graphics with the highest product performance and reliability in a scriptless environment. LyricX marks a significant milestone in our goal to improve the user experience while surpassing Lyric's well-earned reputation for high performance and reliability. LyricX achieves this goal, yet retains all of the most popular Lyric features designers and operators have come to know, love and rely on.

A SUPERIOR EXPERIENCE FOR DESIGNERS AND OPERATORS

The tactile needs of the designer and the quick reaction requirements of the operator are of paramount importance to ChyronHego's Lyric application team. As a result, Designers will embrace LyricX's enhanced usability and a more accessible tool set.

LyricX Operators will notice extensive enhancements which result in accelerated workflow and reduced time-readiness to air. LyricX runs visibly faster and Scenes open very quickly.

4K GRAPHICS

The move to live 4K production, particularly in sports, is rapidly accelerating. LyricX is resolution-independent, and its 64-bit architecture and User Interface is optimized for UHD workflows when paired with the HX Graphics Platform.

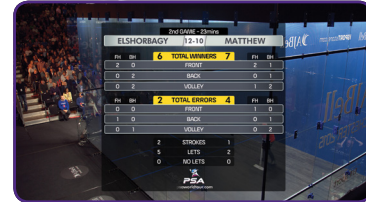

YOUR LYRICX, THE WAY YOU WANT TO WORK

LyricX's modernized user interface allows drag-and-drop UI customization in design or playout modes. All LyricX toolbars can be docked in panes for complete user control. Additional UI enhancements have been added to make the behavior of the UI completely customizable based on the user's personal preferences.

LyricX is the graphics creation and playout tool you've been waiting for and it's the solution we've designed just for you. But it also represents the beginning of a new, exciting journey in graphics creation and playout. So stay tuned, there lots more to come!

Contact us today to schedule a demo, order an upgrade, and learn why more than 9,000 Lyric systems are installed across the globe.

LyricX is graphics creation, reinvented!

KEY FEATURES

Create and playout graphics quickly and effortlessly
