

By Analysts, For Analysts

# COACH CAPTURE

PRODUCT INFORMATION SHEET

---

## CAPTURE, CODE, ILLUSTRATE

Time is your most crucial commodity. We recognize that there are numerous individual events to capture during any given game. Coach Capture removes the restrictions that traditionally limit your ability to quickly capture, code, and organise game footage.

Coach Capture is the newest application to join ChyronHego's Coaching Product Suite. Designed to suit the everyday needs of the video analyst, Coach Capture allows for both live and post-game video recording, tagging, coding and telestration of game events.

The flexibility of Coach Capture lets you code notational data with its intuitive pop-out labels, organizing desktop space and avoiding messy multi-window confusion.

---

## WHEN SPEED MATTERS

Speed and accuracy are the hallmarks of Coach Capture. Code, seek, and skip between events. Automatically add clips to playlists and reorganize them on the fly for those instances where time is critical and pressure is high.

Seamless integration to the analytical workflow of the Coach Paint Product Suite is at the heart of Coach Capture. Code, navigate through events, and easily push clips between Coach Capture and Coach Paint.

Multiple coding, or logging, panels allows coding during a game as well as for pre-game and post-game analysis. In addition, multiple users can share coding panels with each other to support consistent usage across teams and schools.

Coach Capture's file-based workflow goes even further by supporting the import and export of game footage and external XMLs from other existing data & video providers.

Coach Capture is a completely cross platform solution. It is the only logging tool available on Mac OSX, Windows 7 & 10, and Windows® Tablets.

# KEY FEATURES

- **A Seamless Ecosystem for Data and Video Collection**

- **Capture**

- Coach Capture allows you to capture video using Blackmagic® UltraStudio Mini Recorder.

- **Code & Import Data**

- Add event data using Capture's intuitive tagging and labels panel, or sync external files coded elsewhere.

- **Cross-Platform**

- Coach Capture is cross-platform between Windows® and Mac OSX. The software can be used on either system and projects are able to be shared between different users on different platforms.

# KEY FEATURES

- **Code, Label & Share**

Coach Capture's updated and intuitive user interface allows you to code events and control multiple coding panels - for pre, post and crucially, in-game flexibility. Panels can be exported and shared between users for consistent data entry across teams and schools. A time and space-saving feature associated with Panels are Capture's hot key labels, making adding extra information in and out of game easier than ever.

- **Organize & Present**

Capture facilitates multiple playlists in multiple views, allowing you to add and organize groups of events for presentation within the UI, or full screen using simple drag and drop action.

- **Seamless Integration**

Utilizing ChyronHego's robust video backbone, Capture handles any video sources from SD to full 1080 HD. Quickly move clips from Coach Paint to Coach Capture using watch folders to save time and avoid messy transcoding. All of this and more, and you never have to stray outside of the ChyronHego Coaching Suite.

# TECHNICAL SPECIFICATIONS

## SUGGESTED SPECS

- Microsoft® Windows 7 & 10 Professional 64
- Intel® Core™ i7
- SSD with 25 GB (minimum)
- NVIDIA GPU (Kepler or newer)

## BASE SYSTEM CONFIGURATION (MAC)

- Macbook Pro running OSX 10.9.2 or higher.

## SYSTEM

- 2.2GHz
- 2.2GHz quad-core Intel Core i7 processor (Turbo Boost up to 3.4GHz) with 6MB shared L3 cache
- Configurable to 2.5GHz quad-core Intel Core i7 (Turbo Boost up to 3.7GHz) with 6MB shared L3 cache or 2.9GHz quad-core Intel Core i7 (Turbo Boost up to 4.0GHz) with 6MB shared L3 cache.
- 256GB PCIe-based flash storage
- **Graphics:** Intel Iris Pro Graphics

## DIMENSIONS

- **Height:** 1.8 cm (0.71 inches)
- **Width:** 35.89 cm (14.13 inches)
- **Depth:** 24.71 cm (9.73 inches)
- **Weight:** 2.04 kg (4.49 pounds)

## POWER

- MagSafe 2 power port
- **Line voltage:** 100V to 240V AC
- **Frequency:** 50Hz to 60Hz

## EXPANSION

- Two Thunderbolt 2 ports (up to 20 Gbps)
- Two USB 3 ports (up to 5 Gbps)
- HDMI port
- 3.5mm headphone jack
- SDXC card slot
- Apple Thunderbolt to FireWire Adapter
- Apple Thunderbolt to Gigabit Ethernet Adapter

## BASE SYSTEM CONFIGURATION (PC)

- **HP ZBOOK 17 G2 Mobile Workstation** (Example)
- Microsoft® Windows 7 & 10 Professional 64
- Intel® Core™ i7-4710MQ. Requires Intel HD 4000 graphics card. (2.5 GHz, up to 3.5 GHz with Intel Turbo Boost Technology, 6 MB cache, 4 cores)
- **Chipset:** Mobile Intel® QM87
- 8 GB 1600 MHz DDR3L SDRAM (2 x 4 GB)
- **Memory Slots:** 2 SODIMM (for dual-core processor) or 4 SODIMM (for quad-core processor)
- 256 GB PCIe SSD
- DVD+/-RW SuperMulti DL

\***PLEASE NOTE:** PC/MAC Hardware Not Included.

# TECHNICAL SPECIFICATIONS

## DIMENSIONS

- **Height:** 1.33 in/3.4 cm
- **Width:** 16.37 in/41.6 cm
- **Depth:** 10.7 in/27.2 cm
- **Weight:** Starting at 7.42 lbs/3.36 kg
- **Power:** 200 W Slim Smart AC adapter (external)

## NETWORK INTERFACE

- Integrated Intel I217-LM Gigabit Network Connection

## AUDIO

- DTS Studio Sound HD audio (Windows OS only); Integrated stereo speakers; Integrated microphone (dual-microphone array when equipped with optional webcam); Button - volume mute, volume up/down keys; Combo microphone in/stereo headphone out jack

## EXPANSION FEATURES (PORTS)

- 3 USB 3.0 (1 charging); 1 USB 2.0
- 1 Thunderbolt™ 2
- 1 DisplayPort 1.2
- 1 stereo microphone-in/headphone-out combo
- 1 power connector
- 1 RJ-45
- 1 docking connector
- 1 secondary battery connector
- 1 VGA

## EXPANSION FEATURES (SLOTS)

- 1 ExpressCard/54
- 1 SD; 1 smart card reader
- **CODECS SUPPORTED**  
Import/Export (Partial List)  
J2K; MJPEG; QuickTime Animation (RLE); Raw DNxHD; H.264 / AVC / MPEG-4 AVC / MPEG-4 part 10
- **NOTE:** Please refer to the HP website for more detailed specifications.

\***PLEASE NOTE:** PC/MAC Hardware Not Included.

# 5 REASONS

## COACH CAPTURE

Coach Capture is designed to suit the everyday needs of the sports video analyst. Coach Capture allows for both live and post-game video recording – all the way up to 1080p HD format, tagging, and telestration of game events.

Coach Capture is part of ChyronHego's expanding Coaching Product Suite, and it is the only cross-platform logging tool available on Mac OSX, Windows® 7 & 10, and Windows® Tablets.

### 1

#### **Coach Capture Provides You With A Seamless Ecosystem For Data And Video Collection.**

- **Capture:** Coach Capture allows you to capture video using Blackmagic® Ultrastudio Mini Recorder, or import local clips.
- **Code & Import Data:** Add event data using Capture's intuitive tagging and labels panel, or sync external files coded elsewhere.

### 2

#### **Coach Capture Is Cross-Platform.**

- Coach Capture is cross-platform between Windows® and Mac OSX. The software can be used on either system and projects are shared between different users on different platforms.

### 3

#### **Coach Capture Is Built Upon Years Of Telestration And Data Experience.**

- The synergy between Coach Paint and Coach Capture is a feature unique to the ChyronHego Sports Ecosystem. When used in combination with ChyronHego's Coach Paint, Coach Capture brings broadcast quality graphics and years of video and data experience into one platform. It's the ultimate coaching tool!

4

## With Coach Capture, It Is “Time Saved = Time Earned”.

- By leveraging ChyronHego’s Sports Technology Ecosystem, coaches and analysts lessen their daily time deficit by reducing the number of separate and disparate tools needed to get the job done. Coach Capture delivers an intuitive and interlinked workflow from data collection to visualization.

5

## Coach Capture Is Built Around A File-Based Workflow.

- Easily push clips between Coach Capture and Coach Paint. Import and export game footage and XMLs from other video and data sources.
