

Capture, Convert & Click To Live TV

Content Without Limits

TOOLBOX

PRODUCT INFORMATION SHEET

DUTCH ARMY KNIFE
FOR BROADCAST
PROFESSIONALS

HOW IS IT USED?

Used for routing PC or web content, stills, video and embedded audio throughout the vision mixer.

- Get YouTube straight from your PC on air
- Video calls: Skype, Google Hangouts, Viber etc. in audio sync
- Get images and videos directly from the Internet into the vision mixer

WHO BUYS THIS?

Everyone! This tool is the number one choice for anyone looking to capture and playout video, stills, or online content. A powerful solution for working with analog and digital video in SD and HD.

This is the “Dutch Army Knife” that a modern TV professional cannot live without. It gives the broadcaster the flexibility and speed to bring anything from a PC on air with a few mouse clicks. Our solution has the best quality output compared with other industry alternatives.

DID YOU KNOW?

Toolbox has a VLC to SDI converter inside. You can bring video calls made with any commonly used video communication tool directly to SDI.

THE WORLD'S BEST SCAN CONVERTER AND MORE!

Solves 4 daily problems with one click:

- Any codec to air
- Any PC content to air
- Any still to air
- Professional video calls to air

DELIVERABLES
